

SW-1800 Compact series sweeper

The SAMI compact series sweeper is an efficient tool for maintaining hard-surfaced roads and areas. It is intended for use with a small tractor or loader with up to 70 horsepower. The sweeper effectively clears roads of light gravel, debris, tree leaves, and similar materials. Its strong and durable construction ensures long-term use.

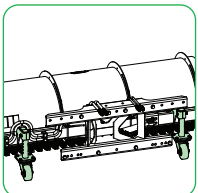

TURNING ANGLE

Compact tractor sweeper can be turned hydraulically up to ± 25 degrees.

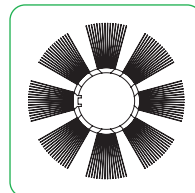

MAXIMUM USE

The height of the sweeper can be adjusted according to the wear of the brush, allowing maximum use of the brush rings.

SUPPORT WHEELS

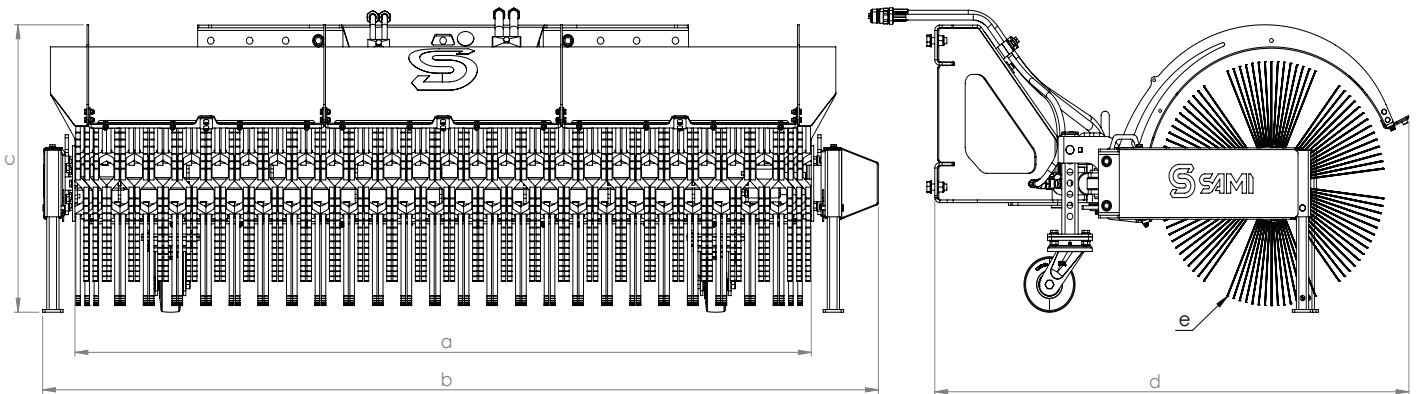

Support wheels ensure optimal sweeping height and uniform wear of the bristles.

BEELINE®

All SAMI sweepers use high-quality Beeline® brush rings produced in Finland.

➤ It is possible to add a 600 l water tank set (cat. 1 + cat. 2) or a 1000 l water tank frame (cat. 2) to the tractor's 3P rear hitch.

Model	SW-1800
Working width (a) (mm)	1800
Width (b) (mm)	2048
Height (c) (mm)	647
Length (d) (mm)	1158
Brush diameter (e) (mm)	Ø550
Turning angle (°)	±25
Weight (kg)	190
Oil flow (min. - max.) (l/min)	30 - 60
Oil pressure (max.) (bar)	200
1/2" couplings	2 pairs
Recommended tractor weight (t)	1,5 - 3
Recommended tractor power (hp)	35 - 70
Recommended working speed (km/h)	5 - 10
Standard equipment	Hydraulic turning angle
Additional equipment	Water system, dust cover, LED lights
Fastenings	All the most common fastenings
Material	Made from SSAB steel
